

Our Story.

Our history goes back to 1940 and steadily evolved into our multi-faceted agency. We now serve the insurance needs of thousands of individuals, families and businesses in many states, representing the country's leading insurance companies.

We strive to develop long-term, loyal client relationships by enthusiastically anticipating, identifying, and responding to our clients' needs – by ethically basing our conduct and decisions on what is right – and by professionally continuing to acquire the highest level of skills and knowledge in order to provide them with the best service in the business.

Experience. Service. Trust.

We are a firm of proven professionals, caring and conscientious people; the kind of people you can depend on.

We treat our clients as if they are our own family. We always strive to be honest and fair in all our dealings. We do not want to sell you just an insurance policy, we are interested in people and their problems. We are a professional agency with personal service.

We have a commitment to maintain a high standard of excellence in all that we do and to establish a firm relationship of mutual trust and service with each of our insureds.

Independent Agency.

We do not work for an insurance company; we work for you. We work on your side when you have a loss and follow through to see that you get fair, prompt payment and service.

We represent a carefully selected group of financially sound, reputable insurance companies, and we place your policy with the company offering the best coverage at a competitive price.

You in Mind.

Our professional staff analyzes your insurance requirements first from the viewpoint of Risk Management.

By risk elimination, risk reduction, risk transfer or risk assumption the cost of your package of insurance may be considerably reduced.

Your existing insurance is examined and recommendations and cost comparisons are submitted to you for review.
